Welcome to ABC

ADAMAS BLOCKCHAIN COMMUNITY

Who we are

The ABC Club is a vibrant, student-driven community at Adamas University.

Focused on empowering students with skills in blockchain, web development, and related technologies.
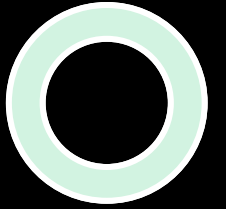

# What's in for you? (if you are a student)

- Practical experience that goes beyond academic theory, hackathon preparations.

- Projects that simulate real- world scenarios, blending business, tech, and finance.

- Networking opportunities.

- Portfolio building for freelancing.

Projects You Can do here

- Blockchain Development (Understand how **blockchains work**)

- Full-stack development (Learn **HTML, CSS, JavaScript**)

- AI/ML in Blockchain (Learn **Python & AI libraries**)

Right now (March 2025),

we are starting with
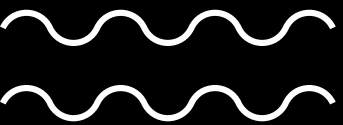

UX/UI Designing and developing!

What is UX/ UI?

As a UX Designer, your job is to make sure that when someone uses your app or software, they can understand it easily without any confusion.
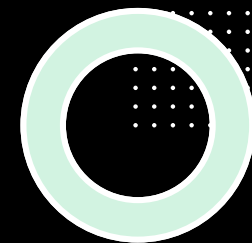

You just need to make it simple, clear, and easy to navigate so that users don't get frustrated.

Simple right?

Workflow

Understanding the problem, user needs and goals.

Start writing the actual code

Hosting the website/app

| Research | Design | Development | Testing | Deployment |

Creating wireframes & prototypes

(Using Figma)

Bug testing and fixing
